I have been fasting and cleansing for over 5 years now. I normally have to log onto 10 or more sites to continue to educate myself as I cleanse. But now I've discovered Jay Greene's Ebook on every type of cleanse and all of the essential information even how to come off a cleanse safely...I am hooked! I just finished the Master Cleanse and Jay's book and advise were key in my success. I strongly recommend you buy it online and share his site with your friends!
